*Basis for Opinion*

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

**Notes to Financial Statements**

**Note 1 - Business and summary of significant accounting policies:**

**Business:**

Mediobanca Securities USA, LLC (the "Company"), a wholly-owned subsidiary of Mediobanca - Banca di Credito Finanziario S.p.A. (the "Parent"), was formed as a Delaware limited liability company on August 23, 2006. The Company is registered with the Securities and Exchange Commission (the "SEC"), the Financial Industry Regulatory Authority ("FINRA"), and the Securities Industry Protection Corporation ("SIPC") to conduct its operations as an introducing broker of equity securities that will solicit business primarily in Italian securities traded on the Milan Stock Exchange, and may occasionally seek business for stocks traded on European and other exchanges. In November 2014, the Company was approved by FINRA to trade foreign options securities. In May 2015, the Company was approved by FINRA to participate in underwritings as a selling group member. The Parent is a member of various stock exchanges and is subject to the rules and regulations of such organizations.

The Company solicits and accepts orders from its customers for the purchase and sale of foreign securities, primarily Italian securities, with such transactions being executed by the Parent. The clearance and settlement of the trades occur through a direct transfer of funds and securities between the Company's customers and the Parent's clearing broker. Accordingly, the Company is exempt from registration for foreign broker-dealers transacting foreign securities in the United States with United States customers pursuant to the provisions of Rule 15a-6(a)(3).

The accompanying financial statements have been prepared from the separate records maintained by the Company and, due to certain transactions and agreements with affiliated entities, such financial statements may not necessarily be indicative of the financial condition that would have existed or the results that would have been obtained from operations had the Company operated as an unaffiliated entity.

**Use of estimates:**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

**Revenue recognition:**

Effective July 1, 2018, the Company adopted Accounting Standards Update No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*. This new revenue recognition guidance requires that an entity recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance requires an entity to follow a five hyphenate step model to (a) identify the contracts(s) with a customer, (b) identify the performance obligations in the contract, (c) determine the transaction price, (d) allocate the transaction price to the performance obligations in the contract, and (e) recognize revenue when (or as) the entity satisfies a performance obligation. The Company applied modified retrospective method of adoption which resulted in no adjustment as of July 1, 2018.

**Securities transactions and valuations:**

Securities transactions and related commission revenue, which are all earned from the Parent, and expenses associated with customer transactions are recorded on a trade-date basis.

**Research fee income:**

Revenue from research fees is recognized as the services are performed (performance obligation has been satisfied) or delivered and collection reasonably assured.

**Placement fee income:**

Placement fees, which are all earned from the Parent, are recognized when the services are complete (performance obligation has been satisfied), revenues are earned and collection is determined as reasonably assured.

**Mediobanca Securities USA, LLC**  
**Notes to Financial Statements**

**Cash and cash equivalents:**

Cash equivalents, if any, are investments in money market funds and investments with maturities of 90 days or less when purchased. There are no cash equivalents at June 30, 2019.

**Furniture, equipment and leasehold improvements:**

Furniture, equipment and leasehold improvements are stated at cost. Depreciation is provided using the straight-line method over the assets' estimated useful lives of five to seven years. Amortization of leasehold improvements is provided using the straight-line method over the lesser of the useful life or lease term.

**Income taxes:**

The Company has elected to be taxed as a corporation and files separate income tax returns. The Company accounts for income taxes pursuant to the asset and liability method which requires deferred tax assets and liabilities to be computed for temporary differences between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates applicable to the periods in which the temporary differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized.

The Company complies with accounting rules for uncertainty in income taxes. The Company has no unrecognized tax benefits at June 30, 2019. The Company's U.S. federal and state income tax returns prior to fiscal year 2016 are closed. Management continually evaluates expiring statutes of limitations, audits, proposed settlements, changes in tax law and new authoritative rulings.

The Company recognizes interest and penalties associated with tax matters, if applicable, as part of other expenses and includes accrued interest and penalties in accrued expenses in the statement of financial condition. The Company did not recognize any interest or penalties associated with tax matters for the year ended June 30, 2019.

**Stock-based compensation:**

The Parent allocates to the Company its portion of stock-based compensation. The fair value-based method of accounting prescribed by stock compensation accounting standards is used for the employee stock option program. Under stock compensation accounting standards, compensation expense related to the stock option program is determined based on the estimated fair value of options granted. For the year ended June 30, 2019, there were no new options granted, no unexercised options were outstanding and no stock based compensation expense was incurred.

**Credit risk:**

The Company is exposed to off-balance sheet risk of loss on transactions during the period from the trade date to the settlement date, which is generally three business days.

The Company maintains cash deposits with banks and brokers. At times, such deposits exceed federal or other applicable insurance limits.

Substantially all of the commissions and placement fees are earned from the Parent. A majority of the commissions and placement fees earned relate to the European market.

**Bad debt:**

The Company extends credit to its customers in the normal course of business and performs ongoing credit evaluations of its customers. Accounts receivable are stated at amounts due from customers, net of an allowance for doubtful accounts. The Company determines its allowance for doubtful accounts by considering a number of factors, including the length of time trade accounts receivable are past due and the customer's current ability to pay its obligation to the Company. The Company writes off accounts receivable against the allowance account when they become uncollectible. As of June 30, 2019, there was no balance for the allowance for doubtful accounts.

**Mediobanca Securities USA, LLC**  
**Notes to Financial Statements**

**Foreign currency:**

All transactions with the Parent are denominated in Euros and are converted into US dollars at the date of the transaction. Therefore, there is no exposure to foreign currencies as the transaction date and amounts ultimately received or paid are measured at the transaction date.

**Note 2 - Related party transactions:**

The Company has commission and expense-sharing agreements with the Parent. These agreements provide for 10% of the commission generated by the Company to be allocated to the Parent, with the residual 90% allocated to the Company. The allocation of commissions to the Parent serves as reimbursement for certain operating expenses relating to the Company's broker-dealer activities including trade execution, transaction clearance and settlement, research, administration services and information services. As the customers are customers of the Parent, and predominantly conduct their business directly with the Parent, the Company records commission income on a net basis. Amounts due from the Parent relating to these commissions have no specified due date. At June 30, 2019, \$107,980 was due from the Parent and is included in Due from Parent in the statement of financial condition.

The Company also has expense sharing agreements with the Parent regarding certain administrative expenses. For the year ended June 30, 2019, credits issued by the Parent for prior years' expenses resulting from a change in policy by the Parent exceeded administration expenses charged by the Parent and a net credit of \$56,805 is included in professional fees on the accompanying statement of operations. At June 30, 2019, \$12,910 was due to the Parent relating to these expenses and is included in Due from Parent in the statement of financial condition.

**Note 3 - Furniture, equipment and leasehold improvements:**

Furniture, equipment and leasehold improvements consist of the following:

	Estimated Useful Lives		As of June 30, 2019
Office equipment	5	\$	128,782
Office furniture	7		44,697
Leasehold improvements	3		172,295
			345,774
Less accumulated depreciation and amortization			(339,098)
Total		\$	6,676

**Mediobanca Securities USA, LLC**  
**Notes to Financial Statements**

**Note 4 - Income taxes:**

The current income tax payable for the year ended June 30, 2019 was \$78,514 and is included in accounts payable and accrued expenses in the Statement of Financial Condition. At June 30, 2019, deferred tax assets were \$249,870.

The Company evaluated its valuation allowance at year-end and determined the deferred income tax asset will more than likely be realized in the future and therefore no valuation allowance is required at the year-end. The tax effects of temporary differences that give rise to significant portions of deferred tax assets at June 30, 2019 are comprised of the following:

	<u>As of June 30,</u> <u>2019</u>
Deferred tax assets	
Organizational costs	\$ 65,444
Accrued bonuses	146,990
Furniture, equipment and leasehold improvement	37,436
Total deferred tax assets	<u>\$ 249,870</u>

The expected tax provision based on the U.S. federal statutory rate is reconciled with actual tax provision, as follows:

	<u>As of June 30,</u> <u>2019</u>
Statutory federal income tax rate	21.0%
State taxes, net of federal tax provision	8.6%
Income tax provision	<u>29.6%</u>

	<u>As of June 30,</u> <u>2019</u>
Federal	
Current	\$ 80,543
Deferred	1,007
State	
Current	39,035
Deferred	432
Income tax expense	<u>\$ 121,017</u>

Management has assessed the changes in tax laws relating to the Federal Tax Cuts and Jobs Act (the "Tax Act"). The Tax Act reduced the federal corporate tax rate from 35% to 21%, effective January 1, 2018. The Company computed its income tax expense for the year ended June 30, 2019 using the new federal tax rate of 21%, which applies to fiscal years ended June 30, 2019 and each year thereafter.

**Mediobanca Securities USA, LLC**  
**Notes to Financial Statements**

**Note 5 - Commitments:**

**Leases:**

On February 22, 2017, the Company extended its existing lease through March 31, 2020. The lease payments for the year ended June 30, 2019 were \$169,124. Future minimum lease payments are as follows for the year ending June 30:

2020	\$	<u>112,812</u>
Total	\$	<u>112,812</u>

**Employment agreement:**

The Company has an employment agreement with an executive that provides for a base salary of \$250,000 per year, a minimum guaranteed bonus of \$35,000, and a severance package of \$630,000.

**Note 6 - Employee benefit plan:**

Effective August 23, 2006, the Company established a 401(k) profit-sharing plan, which allows for contributions by employees up to a defined amount of the employees' compensation, subject to statutory limitations. For plan years beginning on and after July 1, 2007, the Company will contribute 3% of the participating employees' compensation. Employer contributions for the year ended June 30, 2019 were \$99,996.

**Note 7 - Net capital requirement:**

The Company is a subject to the SEC Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital of \$250,000 and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At June 30, 2019, the Company has net capital of \$5,314,241, which exceeded the minimum requirement of \$250,000 by \$ 5,064,241. The Company's percentage of aggregate indebtedness to net capital was 23.06%.

**Note 8 - Indemnifications:**

In the normal course of its business, the Company indemnifies and guarantees certain service providers, such as clearing and custody agents, trustees and administrators, against specified potential losses in connection with their acting as agents of, or providing services to, the Company or its affiliates. The Company also indemnifies some clients against potential losses incurred in the event specified third-party service providers, including sub-custodians and third-party brokers, improperly execute transactions. The maximum potential amount of future payments that the Company could be required to make under these indemnifications cannot be estimated. However, the Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the accompanying financial statements for these indemnifications.

**Note 9 - Subsequent events:**

The Company has evaluated the possibility of subsequent events affecting the Company's financial statements through the date the financial statements were issued, and has determined that there are no material events that would require disclosure in the Company's financial statements.
